Community Mental Health Newsletter

Riverview Psychiatric Medicine has been using the country's #1 Cloud Based Electronic Health Record (EHR) Platform, Practice Fusion. Over the course of the past 2 years Practice Fusion has updated its EHR to include e-prescribing, web-based computer and tablet utility so that our clinicians

can access your medical record anywhere through a secure password protected website, thus providing full record review in real time whenever you call. Practice Fusion provides a Scheduler and all appointments are logged in and are recorded on your chart. Practice Fusion is able to connect to Labcorp and Quest seamlessly and final results are sent directly to your chart. In the near future Practice Fusion will be compliant with New York State e-prescribing laws for Controlled Substances and we will be able to directly send Controlled Substance Prescriptions to the pharmacy without the need for a hard copy prescription. All medical forms and results that we received by mail or fax are scanned into your record so we are nearly a paperless office.

We will be requesting over the next weeks and months ahead for your email address and mobile telephone numbers so that we can invite you to join our Patient Portal through Patient Fusion which is the patient access to Practice Fusion. It is a password protected site in which you will be invited through your email to join. You will be assigned an ID (email address) and password to access your Patient

Fusion Patient Portal. The portal will allow you to schedule appointments on-line, access lab work, Care Plans, medications prescribed and also your laboratory work if it is connected to our partners Quest and Labcorp. Patient Fusion provides email reminders and mobile phone text reminders of your scheduled appointments. Patients can access our schedules on Patient Fusion (also found on our website Contact Us section) and request appointments on-line. Riverview Psychiatric Medicine PC is one of the first mental health practices that has activated the Patient Intake Form on-line through the Patient Portal. Access to our intake form will be emailed to you when you have a confirmed appointment. The intake form is an extensive mental health and medical questionnaire that will assist our clinicians to appropriate diagnose and treat your psychiatric condition. If you have any questions don't hesitate to ask our administrative staff for assistance.

Smile!

Over the next weeks ahead our administrative staff will be requesting to take your picture. As part of personalized and secure health care which is compliant with HIPAA and HITECH regulations we want to

make sure that we can identify you when receive your mental health care at Riverview Psychiatric Medicine. Our front office staff will be taking a web cam picture of you which will be displayed in your chart in Practice Fusion. Thank you again for your assistance!

Kenneth Wilson MD DFAPA Joins Riverview

Randy I. Pardell MD DFAPA, Medical Director, proudly welcomes Kenneth W. Wilson M.D. DFAPA to Riverview Psychiatric Medicine, PC. Dr. Wilson is a Board Certified Psychiatrist, Distinguished Fellow of the American Psychiatric Association. He received his undergraduate degree from Washington University in St. Louis and his medical degree from New York Medical College where he holds the position of Assistant Professor of Psychiatry and Behavioral Sciences. Dr. Wilson completed his psychiatric residency training at St. Vincent's Hospital and Medical Center where he was appointed Chief Resident and went on to complete a fellowship in Public Psychiatry at Columbia University Medical Center. He has lead the Emergency Services and Consultation and Liaison Services at a number of medical centers in New York City including St. Vincent's Hospital. Prior to joining Riverview Psychiatric Medicine, PC, Dr. Wilson was the Director of the Department of Psychiatry at Vassar Brothers Medical Center, a division of Health Quest Medical Practice. Dr. Wilson has a special interest in the interaction between physical health and psychiatric illness including psychosomatic medicine.

Our Team

Randy Pardell, MD,DFAPA

Ken Wilson MD DFAPA

Terri Coonrad-Hershkowitz, NP-P

Elyn Enisman, CEC, LMSW

Virginia Coleman, LCSW-R

Randy I. Pardell, MD DFAPA is a board certified psychiatrist, Castle Connolly Top Doctor and Distinguished Fellow of the American Psychiatric Association. Dr. Pardell completed TMS fellowships at the Harvard School of Medicine and the Duke University School of Medicine. He is a nationally recognized speaker and educator, lecturing on the latest treatments for psychiatric disorders. He has been a psychiatrist in the Hudson Valley for over 25 years.

The *TMS Center of the Hudson Valley* offers patients state of the art treatment for recurring depression. Transcranial Magnetic Stimulation Therapy (TMS) gives hope to those who were unresponsive to medication, experienced unwanted side effects from medication or those opting for alternative modalities. Our practice has a clinically proven response rate of greater than 72% for the treatment of depression using TMS Therapy.

We offer Complimentary Community Educational Events.
